

# Creating a

ELA Induction Meeting

Rome 19th November, 2019

Maria Grazia Maglione  
Maria Rosella Manni

## What is a WebQuest?

A **WebQuest**, according to Bernie Dodge, the originator of the WebQuest concept, is an inquiry-oriented lesson format in which most or all the information that learners work with comes from the web.

## Why using a WebQuest?

- promotes high-level thinking
- develops problem-solving skills
- provides an avenue for seamlessly integrating technology into the curriculum

# The WebQuest formula

The six building blocks of a WebQuest are:

- The **Introduction** orients students and captures their interest.
  - The **Task** describes the activity's end product.
- The **Process** explains strategies students should use to complete the task.
- The **Resources** are the Web sites students will use to complete the task.
  - The **Evaluation** measures the results of the activity.
- The **Conclusion** sums up the activity and encourages students to reflect on its process and results.
