EU - Commission gives a boost to youth mobility in Europe

Publicato: 28 Marzo 2017

Consiglia    Share

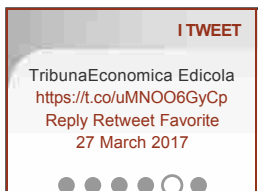

The European Commission presented an initiative under the **Erasmus+** programme which further supports learning and mobility of young Europeans. Called "Move2Learn, Learn2Move", it will enable at least 5,000 young citizens to travel to another EU country in a sustainable manner – individually or together with their school class. The one-off initiative, which is linked to the 30th anniversary of the **Erasmus** programme, is consistent with two central priorities of the Commission: to put a renewed focus on Europe's youth, and to facilitate EU citizens' mobility, particularly low emission mobility. Move2Learn, Learn2Move builds on an idea put forward by the European Parliament in 2016. It will be implemented through **eTwinning**, the world's biggest teachers' network. Part of **Erasmus+** it enables teachers and pupils across Europe to develop projects together through an online platform.

The initiative will be open to school classes of students aged 16 and above taking part in **eTwinning**. They are invited to indicate whether they want to be considered for free travel tickets which will be awarded for the best **eTwinning** projects in each participating country. Social inclusion will be an important criterion in the selection of the best projects. Once the winners have been picked, they will be able to travel from August 2017 until December 2018, at a date of their

choice. Students will either travel in a group as part of a school trip or individually, depending on the decision of parents and teachers. All transport modes, operators and lines can be selected, taking into account sustainability criteria and points of departure and destination of the participating students. Some operators are supporting the initiative by offering a special rebate to the participants. These operators are: Aegean Airlines, Air Dolomiti, ALSA Grupo, Azores Airlines, Brussels Airlines, Comboios de Portugal, Croatia Airlines, Deutsche Bahn, Hahn Air, Iberia Express, Interrail, Luxair, Naviera Armas, Olibus, SNCF, Transferoviar Calatori, Trenitalia, Vueling and Westbahn.
